

EMOP 2028
XV European
Multicolloquium
of Parasitology

What is the scientific *spirit* of EMOP 2028?

Towards the Next Era of Parasitology: Bridging traditional knowledge with innovation

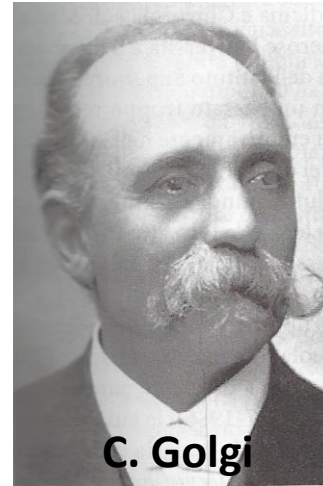

Why Italy to host the XV EMOP 2028?

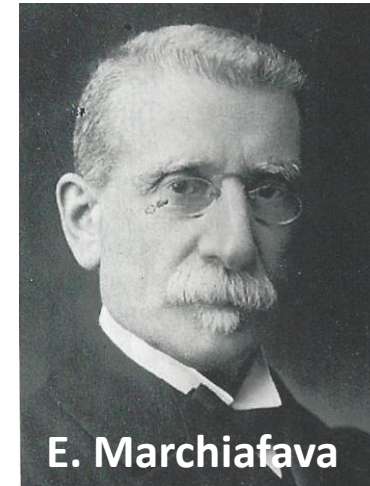

Italy's location at the Mediterranean border of Europe, near North Africa and the Middle East, makes it ideal for the exchange of knowledge on parasitic diseases. This relevance is also tied to the country's recent history when many regions were severely impacted by these diseases.

In the early 20th century, Italian scientists such as Grassi, Celli, Missiroli and Bignami became global references, contributing to the Italian school of malariology.

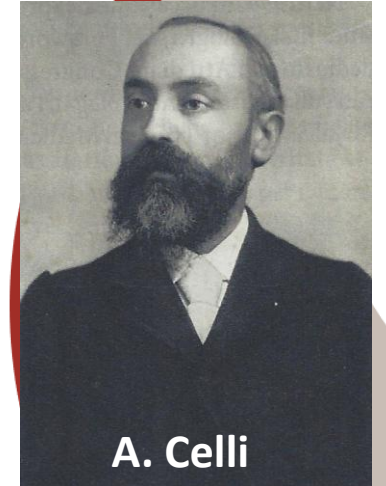

For centuries, parasitic diseases were endemic in Italy, but after World War II, major social and hygienic improvements led to their eradication, including malaria, which was officially eliminated by WHO in 1970.

EMOP 2028

Why SolPa to organise the XV EMOP 2028?

SOIPA
Società Italiana di Parassitologia

The Italian Society of Parasitology (SolPa) is the largest medical and veterinary parasitology organization in Italy. Established in 1959, it continues the work of the Society for the Study of Malaria, founded in 1898.

SolPa is an independent, non-profit scientific organization with over 200 members, including academic medical scientists, biologists, veterinarians, and other professionals interested in the field of parasitology.

The society is dedicated to promoting and supporting the teaching of parasitology at all educational levels, including schools, universities, and post-graduate training programs. It also aims to disseminate knowledge in appropriate venues both nationally and internationally.

In 1996, SolPa hosted the European Multicolloquium of Parasitology (7th EMOP) in Parma, Italy.

Why the XV EMOP 2028 to be held in Rome?

1. EXPERIENCE THE CULTURE

2. CONNECT TOGETHER

3. ENJOY THE CHARM

In the centre of culture, in the middle of Europe and Mediterranean Sea

Italy is the most important crossroads in Europe. It links southern Europe to the rest of the continent and the whole world. Its position is completely strategic and makes the country a perfect meeting point for land, sea and air routes.

EMOP 2028

Why Rome to host the XV EMOP 2028?

...Rome has a long history of parasitological research .

PR 2020

Proposed topics

- Biology of parasites and vectors
- Ecology of parasites and vectors
- Parasites and conservation biology
- Environmental parasitology
- Ectoparasites and vector-borne diseases
- Epidemiology of parasitic diseases
- Parasite and microbiota
- Parasite and endosymbionts
- Food and water-borne parasitology
- Parasite in humans
- Parasite in companion animals
- Parasite in livestock and their control
- Parasites in aquatic organisms
- Parasites in wildlife
- Zoonotic parasites
- Parasitology from One Health perspective
- New insights in taxonomy and phylogeny
- Clinical parasitology and diagnosis
- Mycotic and opportunistic parasite infections
- Paleoparasitology
- Neglected Tropical Diseases
- Omics approaches in Parasitology
- Gene editing and parasite manipulation
- Host-parasite interactions
- Novel perspectives in treatment, vaccination and drug resistance
- Immunopathology and allergy caused by parasites
- Ultrastructure and morphology of parasites
- Artificial intelligence, mathematical and computational modeling in Parasitology
- Relationship between parasite infection and other diseases
- Globalization, climate change and parasite distribution patterns in Europe

Social events

Rome is the perfect set for an unparalleled social event, where the venue choices are as diverse as the city's rich history. Whether it takes place within the timeless charm of an antique Villa, atop a glamorous rooftop with breathtaking views, or in intriguing venues surrounded by fountains and mosaics, the social experience guarantees to leave a lasting impression on participants. The unique and enchanting settings will elevate the ambiance, ensuring that the gathering becomes a truly remarkable and unforgettable occasion for all attendees.

ISS GARDEN

The gardens of the Italian National Institute of Health (Istituto Superiore di Sanità, ISS) in Rome offer a serene oasis amidst the bustling cityscape, inviting visitors to immerse themselves in nature's tranquility.

SAPIENZA UNIVERSITY OF ROME BOTANICAL GARDEN

Encompassing approximately 12 hectares in the heart of the city, nestled between Via della Lungara and Gianicolo Hill, the Botanical Garden is a verdant oasis nestled offering visitors a serene escape into the world of plant diversity and botanical wonders.

BRANCACCIO PALACE

The Brancaccio Palace is the exclusive luxury location in Rome ideal to make wonderful the most important day in a couple's life, their wedding, and to celebrate high-profile Events..

How to get there?

BY METRO

From Termini Station take the metro line B towards Rebibbia. Get off at "Policlinico" stop. The venues are 8/10 minutes walking from the metro stop.

BY BUS

From Termini Station take the 90 or 310 lines (direction Piazza Mancini). Get off at the "Viale Regina Elena/Verano" stop.

FROM THE AIRPORT

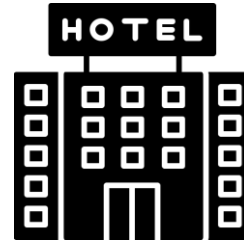

From Leonardo Da Vinci Airport take the Leonardo Express train, which runs directly to Termini Station in Rome. From Termini Station take the metro line B towards Rebibbia. Get off at "Policlinico" stop. The venues are 8/10 minutes walking from the metro stop.

The two locations are very close to Rome Main Train Station (Termini) and are easily reachable by buses, metro, trains.

WHERE TO STAY IN ROME?

Hospitality and accommodation

The choice of accommodation in Rome is extensive, ranging from luxurious five-star hotels to affordable low-cost alternatives. For budget-conscious travelers, Rome offers plenty of hostel accommodations, with rates starting as low as 30 € per bed per night. This is a great option for young scientists, emerging scholars, and participants from low-income countries.

1.700 HOTELS

73.500 ROOMS

150.000 BEDS

3 STUDENT RESIDENCES

TRIUMPH Group: a sustainable congress

Triumph Group Int. promotes the wellbeing and healthy life of its staff and collaborators by creating a comfortable working place aimed to favor social relations and sharing. All «triumphers» bring all these values in all events they organize.

Triumph Group Int. is strongly committed to obtain the same opportunities for men and women, to promote rights equality at all levels and to fight against all kind of violence towards women. This is a process that starts in all headquarters of our Group.

Triumph Group Int. promotes long lasting, inclusive and sustainable economic growth; TGI offers to its employees and collaborators a decent work and carefully selects the supply chain in order to respect the same values.

Triumph Group Int. makes sure that all events organized contribute to make cities resilient and sustainable, reducing or compensating the pollution generated.

Triumph Group Int. cooperates with its clients to improve the quality of the events using sustainable materials. TGI reduces and recycles its own wastes, it prefers local suppliers and reduces the consumption of resources.

Triumph Group Int. Integrates protection measures in its company life and events by offering the option to reduce or compensate unavoidable impacts.

Triumph Group Int. encourages and promotes the implementation of partnership among the stakeholders of the Event & Live Industry, with public and private sector. TGI also promotes the creation of multilateral cooperations that develop knowledge and competences.
